

## **Pivotal Insight Announces Award of GSA's Schedule IT-70 Contract**

Washington, DC – September 1, 2009 – Pivotal Insight, LLC, a government consulting and research firm specializing in information technology management, announces the award of GSA's Information Technology 70 multiple award schedule.

The Pivotal Team will provide information technology professional support services including enterprise architecture, systems architecture, database planning and design, systems analysis and design, network design, application programming, data conversion, systems implementation support, IT project management, data center migration, design, and management, and IT system risk assessments.

“The GSA IT-70 Contract is a very exciting opportunity for the company. It enables us to offer our IT services such as Project and Program Management, Enterprise Architecture, and IT Service Management Advisory Services, which are all core capabilities to Pivotal, to a larger community, and with more procurement flexibility. We look forward to working with our clientele to help them achieve optimal performance and maximize results” commented David Cooke, President and CEO of Pivotal Insight.

### **About Pivotal Insight, LLC**

Pivotal Insight is a small company with deep expertise in performance management, strategic planning, organizational design, and the entire IT program management support lifecycle. Pivotal Insight helps improve the way government organizations run by supplying timely, accurate, and unbiased information on best practices and emerging trends. We help put that information into action through well-qualified consultants who have extensive government, business and technology management experience. The Pivotal Insight leadership team is dedicated to providing an outstanding value to the government and helping to bring agility, effectiveness, and performance to our federal government clients.
